Dear Sirs,

On behalf of Hockey Club Fassa Falcons I want to bring to your attention:

The face off of the game of yestarday between HC Fassa Falcons and Klaghenfurt has been postponed due to the not arrival of the designated Refrees. The motivation that led to theyr substitution, according to the information we know, has been that the three Refrees from Slovenia has not been able to arrive in Canazei due to bad road conditions. We want toknow where were they blocked? Why our Team has not been informed so that we could went to pick them up? Who told them to go back? We are sure that the roads were open to traffic.

We want to have written answer to this point in order to preserve the interests of the team rappresented and for a fair future of the Alps Hockey League
